

You **must** answer this question. Write your answer in **220-260 words** in an appropriate style on the separate answer sheet.

You recently attended a parent-teacher meeting where proposals for education reform were discussed. You have made the notes below:

What changes can improve the education system?

- smaller class sizes
- more teacher training
- greater emphasis on creative subjects

Some opinions expressed during the meeting:

"Smaller class sizes would mean less individual attention for students."

"Teachers are already overburdened; more training won't help."

"Creativity is essential, but we can't ignore core subjects."

Write an essay discussing **two** of the proposed changes in your notes. **Explain which change** you believe would have the most positive impact on education, providing **reasons** to support your choice.

You can incorporate the opinions expressed during the meeting, using your own words as much as possible.
