

You **must** answer this question. Write your answer in **220-260 words** in an appropriate style on the separate answer sheet.

You recently attended a town hall meeting where urban planning strategies for your city were discussed. You have made the notes below:

What urban planning measures can make cities more livable and sustainable?

- Green spaces and parks
- Improved public transportation
- Affordable housing initiatives

Some opinions expressed during the meeting:

"Green spaces are a luxury we can't afford in crowded cities."

"Public transportation is unreliable and not accessible to everyone."

"Affordable housing leads to overcrowding and lower property values."

Write an essay discussing **two** of the urban planning measures in your notes.

Explain which measures you believe are essential for creating livable and sustainable cities, providing reasons to support your choice. Feel free to incorporate the opinions expressed at the town hall meeting, using your own words as much as possible.
